

## ACT ASPIRE

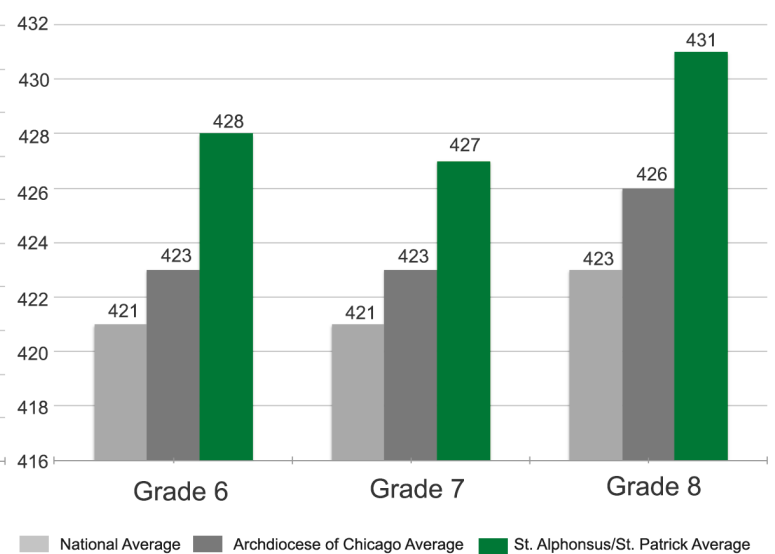

In 2016 the Office of Catholic Schools administered the ACT Aspire tests to students in grades 3-8. This was the first time a test of such rigor was administered with the intent to measure a students' college and career readiness track from third grade through high school. Students will complete tests in 5 key areas: English, math, reading, science and writing. ACT Aspire scale scores range from 400 up, depending on the subject and grade. This scale is unique to ACT Aspire, and clearly differentiates ACT Aspire from other scoring scales. The scores from these assessments help our teachers monitor students' academic growth over their time at St. Alphonsus/St. Patrick.

Scale Scores for St. Alphonsus/St. Patrick students are at or above of the National and Archdiocesan percentile.
