

Rainbows

Guiding Kids Through Life's Storms

A child's grieving process is different from that of adults. Rainbows is a program that helps children get beyond a loss (through death or divorce) with a unique approach of play-based activities. If your child has experienced such a loss, he or she would benefit from our small groups that incorporate age-appropriate, play-based activities, games, and rituals that have proven to be effective. We will help each child prevent misperceptions and sadness from permanently affecting their life.

Mrs. Jenkins and Mrs. Stanek will be providing children with a time for them to get together with other kids their age and talk about what is happening in their lives. These confidential groups will meet one Monday a month (from 2:30-3:15) beginning on January 23, 2012.

If you would like your child to be part of this special group, fill out the registration form below and return it by Tuesday, January 17th.

Name: _____ Age: _____ Grade: _____

Address: _____

City: _____ Phone: _____

Signature (Child): _____

Signature (Parent): _____

Please check: One of my parents died.

My parents are divorced.
